

MOM & BABY TOGETHER: A VIRTUAL ARTIFICIAL INTELLIGENCE CLINICAL ADVISOR

Innovating for positive impact on the maternal-infant dyad

JBS is a proud phase one winner of HRSA Maternal Child Health Bureau's Addressing Opioid Use Disorder in Pregnant Women and New Moms Challenge. We are translating SAMHSA's *Clinical Guide for Treating Pregnant and Parenting Women With Opioid Use Disorder and Their Infants* into a user-friendly clinical practice tool with an initial focus on infant and maternal postnatal care to help improve access to quality health care.
